POPULATION INDEX

CUMULATIVE INDEX TO
VOLUME 53

1987

OFFICE OF POPULATION RESEARCH, PRINCETON UNIVERSITY
POPULATION ASSOCIATION OF AMERICA, INC.

US ISSN 0032-4701

Acknowledgements

Many people contribute to *Population Index* by preparing citations for the Bibliography, by translating and abstracting population literature in foreign languages, and by assisting with artwork, computing, typing, proofreading, and numerous other tasks. The *Index* wishes to thank them all for their help.

We owe a particular debt to the staff of the several Princeton University libraries who help us in our preparation of the Bibliography. We would especially like to thank Thomas Holzmann, Olga Boemeke, and Michiko Nakayama of the library of the Office of Population Research. We also acknowledge the efficient secretarial and clerical help provided by Michael Boeshart and Marcia Davis and the data entry done by Kathryn A. Reynolds, Linda Stickland, and Dorothy Mullen.

We would also like to thank those outside Princeton who have helped us with queries and problems related to the Bibliography over the past year: in particular, the New York Public Library; Neil Zimmerman of the Population Council Library in New York; the library of the New York Academy of Medicine; the Joint Bank-Fund Library; David Foster of the Encyclopaedia Britannica Statistical Library; Daniel Britz of Northwestern University Library; David Rozkuszka of Stanford University Libraries; Judy Mahachek of the Population Information Program at Johns Hopkins University; the U.S. National Library of Medicine; Susan Pasquariella of the Center for Population and Family Health at Columbia University; Doreen Goyer of the University of Texas Population Research Center; Alice Harris of the East-West Population Institute in Hawaii; the staff of DOCPAL at the U.N. Centro Latinoamericano de Demografia in Santiago; the INED library in Paris; the library of the International Labour Office in Geneva; and many members of the Association for Population/Family Planning Libraries and Information Centers—International (APLIC), particularly those who are partners in APLIC's Census Network.

Finally, we acknowledge with gratitude the support we continue to receive from the U.S. National Institute of Child Health and Human Development under Contract No. N01-HD-72901 for gathering and editing the bibliographic data appearing in *Population Index*, and from the U.S. Agency for International Development through the Population Information Program of Johns Hopkins University for assistance with preparing the citations in machine-readable form for inclusion in the POPLINE data base at the U.S. National Library of Medicine.

NOTES ON SOURCES

The bibliographies, journals, and other serial publications listed below are reviewed on a regular basis in the preparation of *Population Index*. Library of Congress proofsheets serve as another major so material for bibliographic citations. Most journals covering medical, biological, and geographical literature are not represented in this list since the principal bibliographies for each discipline are reviewed regularly, namely, *Index Medicus, National Library of Medicine Current Catalog, Biological Abstracts*, and *Current Geographical Publications*.

Routine official statistical publications that do not contain substantive articles are cited in the checklist of Governmental and International Serial Publications Containing Vital Statistics, issued periodically as a special bibliography--see *Population Index*, Vol. 53, No. 4, Winter 1987.

This list is intended as a reference tool. The sources listed here are examined annually and additions or deletions made as appropriate. New titles added during the past year are indicated by a dagger (†). Section III containing other serial publications includes not only those series which are concerned primarily with population topics, nearly all of which will be cited in this Bibliography, but also those series in which population topics are included from time to time. In this latter case, only the publications specifically devoted to population topics are included in this Bibliography.

All sources cited under Section I and Section II are listed alphabetically by title, followed by the title of the issuing agency and the address to which correspondence should be directed. Cross-references are given for official publications of governmental and intergovernmental agencies and for titles in more than one language. Sources in Section III are listed alphabetically by issuing agency and cross-referenced by title when necessary.

The Editors welcome exchanges with institutions, information on new or overlooked publications or bibliographies, and other correspondence that will improve and refine this Bibliography.
